

APHRODITE´S GOLDEN BEACH
Seminar house at Akamas Natural Park
Latchi/Polis • Cyprus

Cyprus is dominated by APHRODITES, the legendary goddess of the island *par excellence*. Being the third largest Mediterranean island with over 300 Sundays a year, Cyprus looks back on a more than 10,000 years old cultural history and so the island of love offers all art and culture lovers as well as all sun worshipers a relaxing, interesting and unique stay. Full of woods and evergreen, with fantastic, extensive beaches in front of a bright blue sea and the legendary hospitality of its inhabitants make Cyprus a special holiday experience.

The Aphrodite Beach Hotel is located away from the hustle and bustle, right on a fine pebbly beach with sparkling water. Gregoria, who has learned the hotelfach in Switzerland, her family and the entire crew make it easy for you to enjoy, relax and enjoy this little paradise with all your senses. All guests are spoiled here with Cypriot warmth and a wonderful and loving comfort.

The nearby Akamas peninsula gives the place its special charm and makes it a true "place of power" by combining mountain and sea. All in all an ideal place for people who are looking for something special: to appreciate peace and comfort and also to discover themselves and the island in total freedom.

You will find 74 comfortable and spacious rooms, all of them provided with shower, toilet, balcony or terrace, most of them with side view over the sea. The daily room cleaning is very much appreciated by our guests. Each room is provided with an air conditioning system that allows both to lower and to warm up the temperature. In the open space of the arrival hall there is the reception, a bar and a chill-lounge with internet access. Meals are taken on the terrace with view of the sea: in the mornings with view over the turquoise sea, in the evenings with the sunset and glittering lights. The mostly cypriot dishes are prepared daily and fresh. The abundant and varied buffet offers a great selection for vegetarians, as well as lovers of meat and fish. Upon request it is possible to prepare food for a specific diet. During the day you can go into one of the many town taverns that are located nearby and have a small snack or also fresh fish and meat.
