

## What to expect...

- ◆ Each of the five Zhineng Qigong Masters will share from their perspective the best approaches, theories and practices for self-healing.
- ◆ Every morning one of the Masters will be presenting his specific approach for self-health care management and holistic health.
- ◆ In the afternoons, all five Masters, together with a team of five selected International Hunyuan Qi Therapists from the West will provide Fa Qi treatments to the retreat participants. Space will be available for joint practice time, as well as an opportunity for question and answer sessions with participants.
- ◆ All the ideas and methods offered by the five Zhineng Qigong Masters can be integrated in one's own practice at home – this is a once in a lifetime opportunity to go deeper into one's Zhineng Qigong practice, or to begin the journey of self-healing.

## Who can participate

This Zhineng Qigong Science Retreat is open to all Zhineng Qigong and Qigong enthusiasts - beginners and advanced students alike - as well as people who work as Trainers, Coaches, Natural Practitioners, Doctors, Teachers or Therapists. The retreat is also aiming to support people who suffer from serious or chronic diseases. In this case, participants are requested to bring copies of their most recent medical reports such as Ultrasounds, X-rays, CT scans, MRI scans, etc. The Zhineng Qigong Master Team will provide effective and holistic health practices to assist participants in activating Hunyuan Qi's self-healing power and abilities. The success of this collaborative work should be checked at the end of the retreat by either our course doctor or your own doctor.

## Registration & Accommodation

To register for the retreat, find more information on accommodation, transfers and visa requirements, please visit the Zhineng Qigong Science Conference website at:
